The end of the year is upon us, and what a year it has been! The NPRC has seen a good deal of success this year and wants to thank everyone for their collaborations and support during 2009. We certainly can't wait to see what wonderful collaborations will come in 2010.

One organization that the NPRC has worked with for many years is SALIS, the Substance Abuse Librarians and Information Specialists. SALIS is an international organization for people who disseminate substance abuse information through both clearinghouses and libraries. The 2010 SALIS conference is being held in New York April 27-30, 2010, and we highly encourage all to go. SALIS conferences provide a wealth of information on new findings in prevention and treatment as well as information dissemination. Information on the conference as well as becoming a member of SALIS can be found on the SALIS website at <http://www.salis.org/>. The call for abstracts is open for the 2010 conference, and everyone is encouraged to submit a proposal. Presenters range from SAMHSA admin to prevention programmers, and serial publishers. This is a great opportunity to share your information dissemination ideas with an international audience and highlight what your organization has done. We hope to see lot of people from Nevada at the conference this year!

Again, thank you for all that you do in our state and the support you provide the NPRC.

Happy holidays!

We help these young people express themselves through poetry and other forms of writing. In our work we ask the teens to speak from the heart about who they are as people, and the teens often respond by writing about traumatic losses that occurred when they were little children, losses such as the death of a parent, abandonment, neglect, abuse, and a parent's addiction. Visit it online at <http://www.pongoteenwriting.org>
