The NPRC can help you raise awareness in your community with the help of our bulk and library materials.

Check out of DWI goggles and let teens and adults try different tasks while wearing these goggles which simulate being drunk.

Borrow the FAS brain model to show mothers-to-be how alcohol will affect their baby's brain.

And of course, there are our hundreds of videos on alcohol and the brain, drunk driving, FASD, and preventing under-age drinking.

Remember, that all of these items can be shipped any-
