Greetings!

The past month since the last Update has been busy for us and we assume for all of you! One significant highlight for November was the program we presented directed to parents of middle schoolers at Trainer Middle School in Washoe County. The program was designed to give parents general information about drugs and how to talk to their kids about drug use. We gave them descriptions of some of the most common drugs, information to help them to identify signs of possible use, and some resources for what to do and who to contact if they suspect their child is involved in alcohol or drug use. The program was well-received and the parents welcomed the packet of resources they could take home to look over. If you are interested in obtaining a copy of the PowerPoint presentation, list of resources and list of hard copy materials we provided, please call, fax or e-mail us.

We hope you have a safe and healthy Thanksgiving!

The guide is found at <http://www.samhsa.gov/ebpWebguide/index.asp>.

## Bulk Materials Update

There are four sections in the bulk materials update. The first is *New Materials* which includes everything that has been added to the clearinghouse database. Second is the *Back in Stock* section which includes items that were previously archived but are now available again. Next is the *Archived/Out of Stock* section. These items are out of stock at NCADI and the NPRC does not have any to distribute. Last are the *Discontinued* items. In this section are all items that can no longer be found and the NPRC has no copies of them. As always, copies of these materials may be available in the NPRC library collection. Please remember that this information may change during the course of the month, and will be updated in the next *Update*.
